This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Title:** Effects of gait training with body weight support on a treadmill vs. overground for  
2 individuals with stroke

3 **Authors:** Gabriela L Gama<sup>1</sup>, MSc, Melissa L Celestino<sup>1</sup>, MSc, José A Barela<sup>1,2</sup>, PhD,  
4 Larry Forrester<sup>3</sup>, PhD, Jill Whittall<sup>4,5</sup>, PhD, Ana M F Barela<sup>1</sup>, PhD

5 **Affiliations:**

6 The study was performed at Cruzeiro do Sul University, Institute of Physical Activity and  
7 Sport Sciences, Laboratory of Movement Analysis

8 <sup>1</sup> Institute of Physical Activity and Sport Sciences, Cruzeiro do Sul University, São Paulo,  
9 SP

10 <sup>2</sup> Department of Physical Education. São Paulo State University, Rio Claro, SP

11 <sup>3</sup> Maryland Exercise & Robotics Center of Excellence, Veterans Administration Maryland  
12 Health Care System, Baltimore, MD 21201

13 <sup>4</sup> School of Medicine, University of Maryland-Baltimore, Department of Physical Therapy  
14 and Rehabilitation Science, Baltimore, MD

15 <sup>5</sup> Faculty of Health Sciences, University of Southampton
