This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights for review:

- we have added table 1 and table 2 with patient characteristics for different BMI groups, sex, comorbidity, Mannheim Peritonitis Index, and APACHE 2 score
- we have added p-values in figure 2 and table 3-5
- We additionally discuss two relevant papers (Jung M Dis Colon Rectum 2014, Kartheuser AH Ann Surg 2013) as encouraged by the reviewers
