Cortisol but not testosterone is repeatable and varies with reproductive effort in wild red deer stags

Alyson T. Pavitt, Craig A. Walling, Erich Möstl, Josephine M. Pemberton, Loeske E.B. Kruuk

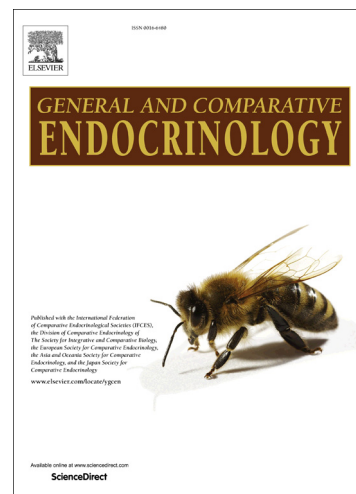

PII: S0016-6480(15)00203-8
DOI: <http://dx.doi.org/10.1016/j.ygcen.2015.07.009>
Reference: YGCEN 12152

To appear in: *General and Comparative Endocrinology*

Received Date: 16 November 2014
Revised Date: 9 July 2015
Accepted Date: 21 July 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Cortisol but not testosterone is repeatable and varies with**
2 **reproductive effort in wild red deer stags**
