

## Accepted Manuscript

Exogenous oxytocin reduces signs of sickness behavior and modifies heart rate fluctuations of endotoxemic rats

José Javier Reyes-Lagos, Martin Hadamitzky, Miguel Ángel Peña-Castillo, Juan Carlos Echeverría, Katharina Bösch, Laura Lückemann, Manfred Schedlowski, Gustavo Pacheco-López

PII: S0031-9384(16)30554-6  
DOI: doi: [10.1016/j.physbeh.2016.07.013](https://doi.org/10.1016/j.physbeh.2016.07.013)  
Reference: PHB 11435

To appear in: *Physiology & Behavior*

Received date: 8 February 2016  
Revised date: 21 June 2016  
Accepted date: 18 July 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Exogenous oxytocin reduces signs of sickness behavior and modifies heart rate fluctuations of endotoxemic rats**

Running title: HRF analysis of oxytocin and LPS
