Effects of active immunisation with myelin basic protein and myelin-derived altered peptide ligand on pain hypersensitivity and neuroinflammation

Chamini J. Perera, Justin G. Lees, Samuel S. Duffy, Preet G.S. Makker, Brett Fivelman, Vasso Apostolopoulos, Gila Moalem-Taylor

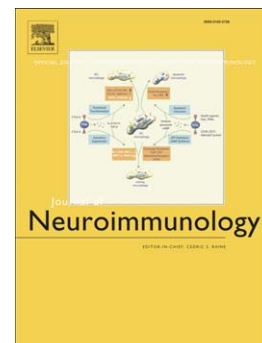

PII: S0165-5728(15)30006-0
DOI: doi: [10.1016/j.jneuroim.2015.07.004](https://doi.org/10.1016/j.jneuroim.2015.07.004)
Reference: JN1 476171

To appear in: *Journal of Neuroimmunology*

Received date: 10 April 2015
Revised date: 23 June 2015
Accepted date: 9 July 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effects of active immunisation with myelin basic protein and myelin-derived altered peptide ligand on pain hypersensitivity and neuroinflammation
