The spatiotemporal hemodynamic response function for depth-dependent functional imaging of human cortex

Alexander M. Puckett, Kevin M. Aquino, P.A. Robinson, Michael Breakspear, Mark M. Schira

PII: S1053-8119(16)30254-3
DOI: doi: [10.1016/j.neuroimage.2016.06.019](https://doi.org/10.1016/j.neuroimage.2016.06.019)
Reference: YNIMG 13257

To appear in: *NeuroImage*

Received date: 20 January 2016
Revised date: 27 May 2016
Accepted date: 10 June 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: The **spatiotemporal** hemodynamic response function for depth-dependent functional imaging of human cortex

Abbreviated title: The spatiotemporal hemodynamic response function
