Characterization of ciprofloxacin-resistant isolates from a wastewater treatment plant and its receiving river

Elisabet Marti , Belinda Huerta , Sara Rodríguez-Mozaz , Damià Barcelo , Juan Jofre , José Luis Balcázar

PII: S0043-1354(14)00351-0

DOI: [10.1016/j.watres.2014.05.006](https://doi.org/10.1016/j.watres.2014.05.006)

Reference: WR 10660

To appear in: *Water Research*

Received Date: 29 January 2014

Revised Date: 30 April 2014

Accepted Date: 5 May 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Antibiotics
Antibiotic-resistant bacteria

Fluoroquinolones in river sediments
Ciprofloxacin-resistant *Gammaproteobacteria*
High prevalence of *qnrS* in *Aeromonas* spp.
