Accepted Manuscript

Sensitivity of modeled estuarine circulation to spatial and temporal resolution of input meteorological forcing of a cold frontal passage

Robert J. Weaver, Peyman Taeb, Steven Lazarus, Michael Splitt, Bryan Holman, Jeffrey Colvin

PII: S0272-7714(16)30461-9

DOI: 10.1016/j.ecss.2016.10.014

Reference: YECSS 5273

To appear in: Estuarine, Coastal and Shelf Science

Received Date: 9 June 2016

Revised Date: 9 September 2016 Accepted Date: 10 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Sensitivity of modeled estuarine circulation to spatial and temporal resolution of input meteorological forcing of a cold frontal passage
