

Accepted Manuscript

Injectable iodine-125 labeled tissue marker for radioactive localization of non-palpable breast lesions

Henrik Schaarup-Jensen, Andreas Ingemann Jensen, Anders Elias Hansen, Henrik H. El Ali, Peter Hammershøj, Rasmus Irming Jølck, Andreas Kjær, Thomas L. Andresen, Mads H. Clausen

PII: S1742-7061(17)30659-1
DOI: <https://doi.org/10.1016/j.actbio.2017.10.029>
Reference: ACTBIO 5135

To appear in: *Acta Biomaterialia*

Received Date: 18 June 2017
Revised Date: 22 September 2017
Accepted Date: 17 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Injectable iodine-125 labeled tissue marker for radioactive localization of non-palpable breast lesions
