Molecular phylogeny and postharvest morphology of petals in two major *Nelumbo nucifera* cultivars in Thailand

Nurainee Salaemae, Seiji Takeda, Nakao Kubo, Samak Kaewsuksaeng

PII: S2452-316X(17)30330-7

DOI: [10.1016/j.anres.2018.06.002](https://doi.org/10.1016/j.anres.2018.06.002)

Reference: ANRES 174

To appear in: *Agriculture and Natural Resources*

Received Date: 17 July 2017

Revised Date: 15 August 2017

Accepted Date: 22 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
