Density, surface tension and glass transition temperature of series of mono-, di-, and tri-cationic imidazolium-based ionic liquids-A predictive approach

Majid Moosavi, Fatemeh Khashei

PII: S0378-3812(17)30516-2

DOI: [10.1016/j.fluid.2017.12.032](https://doi.org/10.1016/j.fluid.2017.12.032)

Reference: FLUID 11705

To appear in: *Fluid Phase Equilibria*

Received Date: 24 May 2017

Revised Date: 18 December 2017

Accepted Date: 22 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Density, surface tension and glass transition temperature of series of mono-, di-, and tri- cationic imidazolium-based ionic liquids-A predictive approach

Majid Moosavi\*, Fatemeh Khashei
