Accepted Manuscript

Title: Fluid Properties at High Pressures and Temperatures: Experimental and Modelling Challenges

Authors: Rajendar R. Mallepally, Babatunde A. Bamgbade, Aaron J. Rowane, Houman B. Rokni, Matthew S. Newkirk, Mark A. McHugh

PII:	S0896-8446(17)30693-9
DOI:	https://doi.org/10.1016/j.supflu.2017.12.003
Reference:	SUPFLU 4128
To appear in:	J. of Supercritical Fluids
Received date:	2-10-2017
Revised date:	1-12-2017
Accepted date:	2-12-2017

Please cite this article as: Rajendar R.Mallepally, Babatunde A.Bamgbade, Aaron J.Rowane, Houman B.Rokni, Matthew S.Newkirk, Mark A.McHugh, Fluid Properties at High Pressures and Temperatures: Experimental and Modelling Challenges, The Journal of Supercritical Fluids https://doi.org/10.1016/j.supflu.2017.12.003

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical abstract

Highlights

- Thermophysical properties are crucial for many chemical processes and products
- Fluid properties at high temperatures and high pressures are needed
- Experimental and modeling challenges for obtaining fluid property data are presented
