Design method for piezoelectric cantilever beam structure under low frequency condition

Qian Zhao, Yinan Liu, Linbing Wang, Hailu Yang, Dongwei Cao

PII: S1996-6814(16)30191-2
DOI: <http://dx.doi.org/10.1016/j.ijprt.2017.08.001>
Reference: IJPRT 111

To appear in: *International Journal of Pavement Research and Technology*

Received Date: 8 September 2016
Revised Date: 13 June 2017
Accepted Date: 2 August 2017

Please cite this article as: Q. Zhao, Y. Liu, L. Wang, H. Yang, D. Cao, Design method for piezoelectric cantilever beam structure under low frequency condition, *International Journal of Pavement Research and Technology* (2017), doi: <http://dx.doi.org/10.1016/j.ijprt.2017.08.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Design method for piezoelectric cantilever beam structure under low frequency conditionQian Zhao¹, Yinan Liu², Linbing Wang^{3*}, Hailu Yang⁴, Dongwei Cao⁵
