

Accepted Manuscript

Development of an environmental-benign process for efficient pretreatment and saccharification of *Saccharum* biomasses for bioethanol production

Anju Bala, Bijender Singh

PII: S0960-1481(18)30678-5

DOI: [10.1016/j.renene.2018.06.033](https://doi.org/10.1016/j.renene.2018.06.033)

Reference: RENE 10189

To appear in: *Renewable Energy*

Received Date: 2 January 2018

Revised Date: 4 April 2018

Accepted Date: 12 June 2018

Please cite this article as: Bala A, Singh B, Development of an environmental-benign process for efficient pretreatment and saccharification of *Saccharum* biomasses for bioethanol production, *Renewable Energy* (2018), doi: 10.1016/j.renene.2018.06.033.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Development of an environmental-benign process for efficient pretreatment and**
2 **saccharification of *Saccharum* biomasses for bioethanol production**

3 **Anju Bala and Bijender Singh***
