Monica W. Tracey is an Associate Professor of Learning Design and Technology in the College of Education at Wayne State University. Her teaching and research focuses on theory and design research of interdisciplinary design including design thinking, designer reflection, designer decision-making and professional identity development. monicatracey@wayne.edu

Alisa Hutchinson has a Master's degree in Educational Psychology and is currently a doctoral student in Learning Design and Technology at Wayne State University. Her research interests include cross-discipline design thinking, professional identity development, and reflective learning in online environments. alisa.hutchinson@wayne.edu

Uncertainty, Agency, and Motivation in Graduate Design Students

**Abstract**

Transformational education in design goes beyond the acquisition of skills and knowledge to involve the development of the self as a designer with an emerging but individual professional identity. For designers, the ability to engage with uncertainty in the design process can be positioned as a threshold concept in a transformation curriculum, one that allows them to
