This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- The first Artificial Intelligence system for credit scoring in e-commerce;
- A new Genetic Programming system for credit scoring;
- Improving the state of the art for credit scoring in e-commerce;
- Transparent predictive models for credit scoring.
