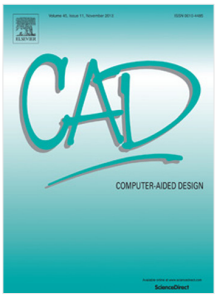
Accepted Manuscript



Survey on geometric iterative methods and their applications

Hongwei Lin, Takashi Maekawa, Chongyang Deng

PII: S0010-4485(17)30162-8
DOI: https://doi.org/10.1016/j.cad.2017.10.002
Reference: JCAD 2555

To appear in: *Computer-Aided Design*

Received date : 8 June 2017
Accepted date : 9 October 2017

Please cite this article as: Lin H., Maekawa T., Deng C. Survey on geometric iterative methods and their applications. *Computer-Aided Design* (2017), https://doi.org/10.1016/j.cad.2017.10.002

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights:

- Several geometric iterative methods are introduced.
- Convergence analysis of the geometric iterative methods is presented.
- Practical applications of the geometric iterative methods are overviewed.
