Accepted Manuscript

Dual Cone Approach to Convex-Cone Dominance in Multiple Criteria Decision Making

Pekka Korhonen, Majid Soleimani-damaneh, Jyrki Wallenius

PII: S0377-2217(15)00885-1
DOI: 10.1016/j.ejor.2015.09.043
Reference: EOR 13262

To appear in: *European Journal of Operational Research*

Received date: 12 August 2014
Revised date: 14 September 2015
Accepted date: 16 September 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- We are revisiting the old idea of convex preference cones
- Convex preference cones can be used to eliminate inferior solutions
- The current paper is based on the idea of utilizing dual cones
- With dual cones we avoid the solving of LPs resulting in computational savings
