Optimization of cochlear implant stimulation resolution using an intracochlear electric potential model

Yuchen Xu, Chuan Luo, Zheng You

PII: S0010-4825(17)30413-4

DOI: [10.1016/j.combiomed.2017.12.016](https://doi.org/10.1016/j.combiomed.2017.12.016)

Reference: CBM 2862

To appear in: *Computers in Biology and Medicine*

Received Date: 29 August 2017

Revised Date: 6 December 2017

Accepted Date: 20 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Optimization of cochlear implant stimulation resolution using an intracochlear electric potential model
