### **Authorship Confirmation**

Please save a copy of this file, complete and upload as the “Confirmation of Authorship” file.

As corresponding author I, Antonino Furnari, hereby confirm on behalf of all authors that:

1. This manuscript, or a large part of it, has not been published, was not, and is not being submitted to any other journal.
2. If presented at or submitted to or published at a conference(s), the conference(s) is (are) identified and substantial justification for re-publication is presented below. A copy of conference paper(s) is(are) uploaded with the manuscript.
3. If the manuscript appears as a preprint anywhere on the web, e.g. arXiv, etc., it is identified below. The preprint should include a statement that the paper is under consideration at Pattern Recognition Letters.
4. All text and graphics, except for those marked with sources, are original works of the authors, and all necessary permissions for publication were secured prior to submission of the manuscript.
5. All authors each made a significant contribution to the research reported and have read and approved the submitted manuscript.

**Justification for re-publication:** In this work, we extend our analysis to a larger number of cart behaviours (from 8 to 14) and perform more thorough experiments including also a comparison with methods employing deep features. Overall, the proposed manuscript constitutes a significant extension of the previously published work.
