

## Accepted Manuscript

Title: A fresh look at dense clay paste: deflocculation and thixotropy mechanisms

Authors: Gnanli Landrou, Coralie Brumaud, Michael Plötze, Frank Winnefeld, Guillaume Habert

PII: S0927-7757(17)31126-3  
DOI: <https://doi.org/10.1016/j.colsurfa.2017.12.029>  
Reference: COLSUA 22153

To appear in: *Colloids and Surfaces A: Physicochem. Eng. Aspects*

Received date: 31-8-2017  
Revised date: 11-12-2017  
Accepted date: 12-12-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## A fresh look at dense clay paste: deflocculation and thixotropy mechanisms
