Title: Soft nanoparticles charge expression within lipid membranes: the case of amino terminated dendrimers in bilayers vesicles

Authors: Domenico Lombardo, Pietro Calandra, Salvatore Magazù, Ulderico Wanderlingh, Davide Barreca, Mikhail A. Kiselev

PII: S0927-7765(18)30400-4
DOI: <https://doi.org/10.1016/j.colsurfb.2018.06.031>
Reference: COLSUB 9421

To appear in: *Colloids and Surfaces B: Biointerfaces*

Received date: 15-2-2018
Revised date: 12-6-2018
Accepted date: 17-6-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Soft nanoparticles charge expression within lipid membranes: the case of amino terminated dendrimers in bilayers vesicles.
