

## Accepted Manuscript

Influence of Thermal Treatment Conditions on Capacitive Deionization Performance and Charge Efficiency of Carbon Electrodes

Lutfi Agartan, Bilen Akuzum, Tyler Mathis, Kurtay Ergenekon, Ertan Agar, E. Caglan Kumbur

PII: S1383-5866(17)33995-3  
DOI: <https://doi.org/10.1016/j.seppur.2018.02.039>  
Reference: SEPPUR 14403

To appear in: *Separation and Purification Technology*

Received Date: 5 December 2017  
Revised Date: 10 February 2018  
Accepted Date: 20 February 2018

Please cite this article as: L. Agartan, B. Akuzum, T. Mathis, K. Ergenekon, E. Agar, E. Caglan Kumbur, Influence of Thermal Treatment Conditions on Capacitive Deionization Performance and Charge Efficiency of Carbon Electrodes, *Separation and Purification Technology* (2018), doi: <https://doi.org/10.1016/j.seppur.2018.02.039>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Influence of Thermal Treatment Conditions on Capacitive Deionization  
Performance and Charge Efficiency of Carbon Electrodes**
