

## Accepted Manuscript

Enhancement of *Spirulina* biomass production and cadmium biosorption using combined static magnetic field

Weilan Shao, Reham Ebaid, Abd El-Fatah Abomohra, Mohamed Shahen

PII: S0960-8524(18)30788-0  
DOI: <https://doi.org/10.1016/j.biortech.2018.06.009>  
Reference: BITE 20026

To appear in: *Bioresource Technology*

Received Date: 2 May 2018  
Revised Date: 4 June 2018  
Accepted Date: 5 June 2018

Please cite this article as: Shao, W., Ebaid, R., Abomohra, A.E-F., Shahen, M., Enhancement of *Spirulina* biomass production and cadmium biosorption using combined static magnetic field, *Bioresource Technology* (2018), doi: <https://doi.org/10.1016/j.biortech.2018.06.009>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Enhancement of *Spirulina* biomass production and cadmium biosorption using combined static magnetic field**
