

## Accepted Manuscript

Effect of different ammonia sources on aceticlastic and hydrogenotrophic methanogens

Hailin Tian, Ioannis A. Fotidis, Konstantinos Kissas, Irini Angelidaki

PII: S0960-8524(17)32085-0  
DOI: <https://doi.org/10.1016/j.biortech.2017.11.081>  
Reference: BITE 19231

To appear in: *Bioresource Technology*

Received Date: 6 November 2017  
Revised Date: 22 November 2017  
Accepted Date: 23 November 2017

Please cite this article as: Tian, H., Fotidis, I.A., Kissas, K., Angelidaki, I., Effect of different ammonia sources on aceticlastic and hydrogenotrophic methanogens, *Bioresource Technology* (2017), doi: <https://doi.org/10.1016/j.biortech.2017.11.081>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Effect of different ammonia sources on acetoclastic and**  
2 **hydrogenotrophic methanogens**
