

## Accepted Manuscript

A 3-D mechanics-based particle shape index for granular materials

Reid Kawamoto, José Andrade, Takashi Matsushima

PII: S0093-6413(18)30067-3  
DOI: [10.1016/j.mechrescom.2018.07.002](https://doi.org/10.1016/j.mechrescom.2018.07.002)  
Reference: MRC 3284

To appear in: *Mechanics Research Communications*

Received date: 31 January 2018  
Revised date: 26 June 2018  
Accepted date: 2 July 2018

Please cite this article as: Reid Kawamoto, José Andrade, Takashi Matsushima, A 3-D mechanics-based particle shape index for granular materials, *Mechanics Research Communications* (2018), doi: [10.1016/j.mechrescom.2018.07.002](https://doi.org/10.1016/j.mechrescom.2018.07.002)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Mechanics-based particle shape index developed for 3-D
- Relationships between shape index, particle rotations, and average stress
- Simple micromechanical model to provide possible explanation for trends
