Conflict of interests: The authors declare that they have no conflicts of interest with the contents of this article.

Funding: This work was supported by the National Institutes of Health [GM077173, CA168464 and CA203439 CA207932]; the JSPS Research Fellowships for Young Scientists; and the University of Massachusetts President's Science and Technology fund.

Author contributions: Y.G., V.M.R. and A.M.M. conceived and coordinated the study. H.L.G. and A.M.M. developed the S1 CSC model. Y.G., N.B.L. And T.Y designed, performed and analyzed sensing experiments. R.M. constructed and purified for fluorescent proteins. G.Y. synthesized and characterized AuNP. J.J.A. and H.L.G. performed and analyzed PDX experiments. Y.G. wrote the paper. H.L.G., A.M.M. and V.M.R edited and approved the final version of the manuscript.
