This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Differential Effects of Stress on Microglial Cell Activation in Male and Female Medial Prefrontal Cortex

Justin L. Bollinger^{1, 2}, Christine M. Bergeon Burns², and Cara L. Wellman^{1, 2}

¹Department of Psychological and Brain Sciences, Program in Neuroscience, and
²Center for the Integrative Study of Animal Behavior

Indiana University, Bloomington, IN 47405

Abbreviated Title: Sex and Stress Effects on Microglial Activation

Keywords: Microglia, Microglial Morphology, Prefrontal Cortex, Acute Stress, Chronic

Stress, Sex Differences

Corresponding Author: Cara L. Wellman

Author Contact: wellmanc@indiana.edu, 812-855-4922

Author Affiliation: Indiana University, 1101 E. 10th St., Bloomington, IN 47405

Conflict of Interest Statement: The authors declare no competing financial interests.

Acknowledgments: We thank Dr. Kimberly Rosvall for providing expert advice on qPCR technique, troubleshooting, and primer design, and Indiana University and the Harlan Scholars Program for their generous support of this research.
