This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Plasticity and redundancy in the integration of adult born neurons in the hippocampus

Author: Thiago F.A. França

Affiliation: Programa de Pós-graduação em Ciências Fisiológicas, Universidade Federal do Rio Grande - FURG, Rio Grande, RS, Brazil. ²Curso de graduação em Ciências Biológicas, Universidade Federal do Rio Grande -FURG, Rio Grande, RS, Brazil. ³Instituto de Ciências Biológicas, Universidade Federal do Rio Grande (FURG), Rio Grande, RS, Brazil.

Email: tfafranca@furg.br

Funding: TFAF receives a doctorate scholarship from the Brazilian Coordination for improvement of higher education personnel (CAPES) (grant number does not apply).

Keywords: adult neurogenesis, hippocampal neurogenesis, dentate gyrus, rewiring, structural plasticity.
