Acknowledgements

This article uses unit record data from Growing Up in Australia, the Longitudinal Study of Australian Children. The study is conducted in partnership between the Australian Government Department of Social Services (DSS) (formerly Families, Housing, Community Services and Indigenous Affairs); the Australian Institute of Family Studies (AIFS); and the Australian Bureau of Statistics (ABS). The findings and views reported are those of the authors and should not be attributed to DSS, AIFS, or the ABS. The author(s) disclosed receipt of the following financial support for the research, authorship, and/or publication of this article: The Longitudinal Study of Australian Children study design and data collection were funded by Australian Government Department of Social Services (formerly Families, Housing, Community Services and Indigenous Affairs). Authors AC and JN are currently supported by the Roberta Holmes Transition to Contemporary Parenthood Program, Judith Lumley Centre, La Trobe University. Author LL is supported by an Australian National Health and Medical Research Council Early Career Fellowship (#1035803).

Conflict of interest

The Authors declare that they have no conflicts of interest.

Word Count: Abstract 243 words; Main text plus tables / references 7320 words
