This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **ACCEPTED MANUSCRIPT**

The Effect of the New Rural Social Pension
Insurance Program on the Retirement and Labor
Supply Decision in China

Lei Shu \*

February 22, 2018

<sup>\*</sup>International Academy of Business and Economics, Tianjin University of Finance and Economics, 25 Zhujiang Road, Hexi District, 300222, Tianjin, China, tel.: +86-22-88157245, email: l.shu@tjufe.edu.cn. I am very grateful to my advisors Bertrand Melenberg, Hans Schumacher, and Anja De Waegenaere. This paper also benefits from the comments by participants of the job market talk at Tilburg University, from the presentation at the Netspar Pension Day, the Laborhealth seminar at Tilburg University, and the 2nd International Conference on The Chinese Economy. Special thanks to Tunga Kantarci and Xi Chen who gave me very valuable comments as discussants.
