Analyzing of e-commerce user behavior to detect identity theft

Zoran Vučković, Dragan Vukmirović, Marina Jovanović Milenković,
Slobodan Ristić, Katarina Prljic

PII: S0378-4371(18)30931-2
DOI: <https://doi.org/10.1016/j.physa.2018.07.059>
Reference: PHYSA 19884

To appear in: *Physica A*

Received date : 24 May 2018
Revised date : 18 June 2018

Please cite this article as: Analyzing of e-commerce user behavior to detect identity theft, *Physica A* (2018), <https://doi.org/10.1016/j.physa.2018.07.059>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights:

1. Identity theft preventive models and frameworks
2. Protective behaviors and risk behaviors for identity theft
3. A new preventive identity theft model
