This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Investigates the fill rate behavior in multiple customer cases for three demand fulfillment policies.
- Analyzes the impact of performance review period length on the fill rate in multiple customer scenarios.
- Studies the impact of correlated demands on the fill rate.
- Examines the impact of size of customer in realized fill rate in multiple customer cases.
