Green-Blood supply chain network design: Robust optimization, Bounded Objective Function & Lagrangian relaxation

Hassan Heidari-Fathian, Seyed Hamid Reza Pasandideh

PII: S0360-8352(18)30260-2
DOI: <https://doi.org/10.1016/j.cie.2018.05.051>
Reference: CAIE 5257

To appear in: *Computers & Industrial Engineering*

Received Date: 1 July 2017
Revised Date: 4 March 2018
Accepted Date: 29 May 2018

Please cite this article as: Heidari-Fathian, H., Hamid Reza Pasandideh, S., Green-Blood supply chain network design: Robust optimization, Bounded Objective Function & Lagrangian relaxation, *Computers & Industrial Engineering* (2018), doi: <https://doi.org/10.1016/j.cie.2018.05.051>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Green-Blood supply chain network design: Robust optimization,
Bounded Objective Function & Lagrangian relaxation**
