

## Accepted Manuscript

Novel insight into the role of withering process in characteristic flavor formation of teas using transcriptome analysis and metabolite profiling

Yu Wang, Peng-Cheng Zheng, Pan-Pan Liu, Xiao-Wei Song, Fei Guo, Ye-Yun Li, De-Jiang Ni, Chang-Jun Jiang

PII: S0308-8146(18)31396-7

DOI: <https://doi.org/10.1016/j.foodchem.2018.08.013>

Reference: FOCH 23354

To appear in: *Food Chemistry*

Received Date: 22 June 2018

Revised Date: 31 July 2018

Accepted Date: 3 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Novel insight into the role of withering process in characteristic flavor formation of teas using transcriptome analysis and metabolite profiling**
