

## Accepted Manuscript

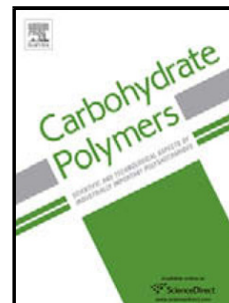

Title: Modified pineapple peel cellulose hydrogels embedded with sepia ink for effective removal of methylene blue

Author: Hongjie Dai Huihua Huang

PII: S0144-8617(16)30401-5

DOI: <http://dx.doi.org/doi:10.1016/j.carbpol.2016.04.040>

Reference: CARP 10980

To appear in:

Received date: 27-1-2016

Revised date: 15-3-2016

Accepted date: 9-4-2016

Please cite this article as: Dai, Hongjie., & Huang, Huihua., Modified pineapple peel cellulose hydrogels embedded with sepia ink for effective removal of methylene blue. *Carbohydrate Polymers* <http://dx.doi.org/10.1016/j.carbpol.2016.04.040>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

• ***Title.***

Modified pineapple peel cellulose hydrogels embedded with sepia ink for effective removal of methylene blue

• ***Author names and affiliations.***

Hongjie Dai, Huihua Huang
