Modulating the water solubility and thermal stability of the anti-tuberculosis drug Isoniazid via multicomponent crystal formation

Luan F. Diniz, Matheus S. Souza, Paulo S. Carvalho, Jr., Charlane C. Correa, Javier Ellena

PII: S0022-2860(18)30672-0

DOI: [10.1016/j.molstruc.2018.05.093](https://doi.org/10.1016/j.molstruc.2018.05.093)

Reference: MOLSTR 25266

To appear in: *Journal of Molecular Structure*

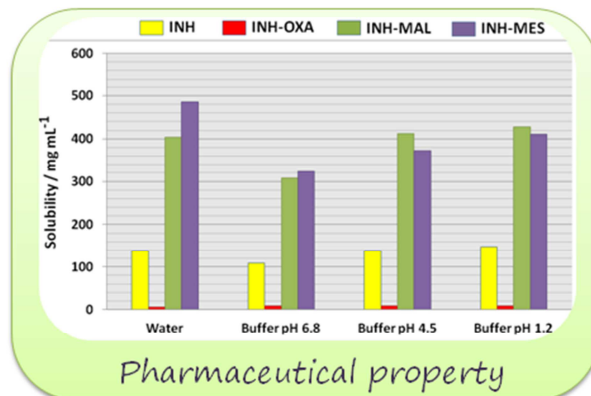

Received Date: 9 March 2018

Revised Date: 23 May 2018

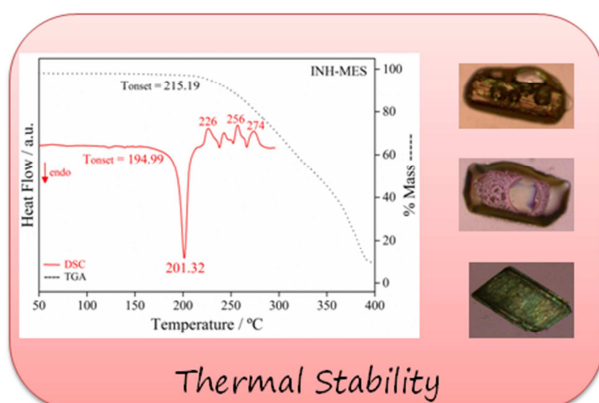

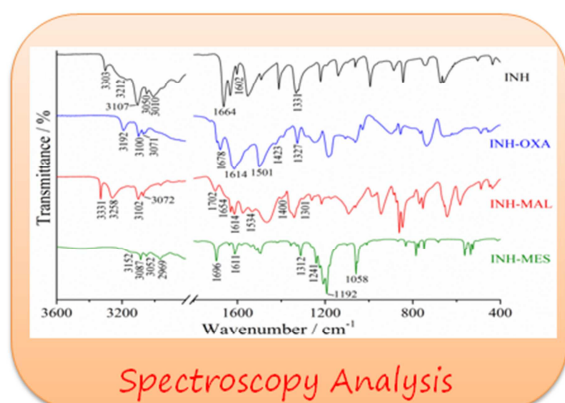

Accepted Date: 28 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
