Surface plasmon effect in electrodeposited diamond-like carbon films for photovoltaic application

B. Ghosh, Sekhar C. Ray, Rodrigo Espinoza-González, Roberto Villarroel, Samuel A. Hevia, Pedro Alvarez-Vega

PII: S0009-2614(18)30176-3

DOI: <https://doi.org/10.1016/j.cplett.2018.03.004>

Reference: CPLETT 35485

To appear in: *Chemical Physics Letters*

Received Date: 11 December 2017

Accepted Date: 5 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
