Graphene oxide standardization and classification: Methods to support the leap from the lab to industry

Carlo A. Amadei, Paula Arribas, Chad D. Vecitis

PII: S0008-6223(18)30221-5

DOI: [10.1016/j.carbon.2018.02.091](https://doi.org/10.1016/j.carbon.2018.02.091)

Reference: CARBON 12927

To appear in: *Carbon*

Received Date: 24 November 2017

Revised Date: 21 February 2018

Accepted Date: 23 February 2018

Please cite this article as: C.A. Amadei, P. Arribas, C.D. Vecitis, Graphene oxide standardization and classification: Methods to support the leap from the lab to industry, *Carbon* (2018), doi: 10.1016/j.carbon.2018.02.091.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphene Oxide Standardization and Classification: Methods to Support the Leap from the Lab to Industry

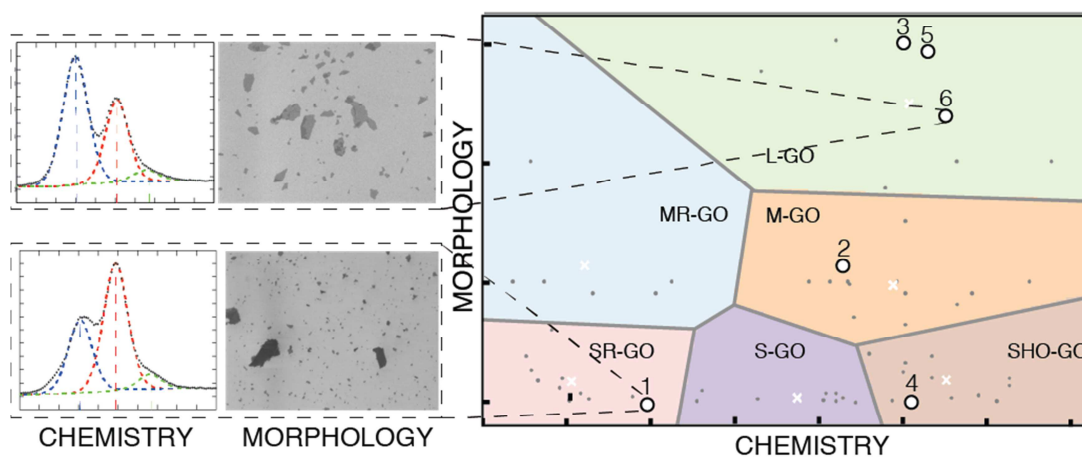

February 2018

Carlo A. Amadei¹, Paula Arribas^{1,2}, and Chad D. Vecitis^{1,*}

¹ John A. Paulson School of Engineering and Applied Sciences, Harvard University, Cambridge, MA 02138, USA

² Department of Applied Physics I, Faculty of Physics, Complutense University of Madrid, Madrid 28040, Spain.

KEYWORDS: graphene oxide, standardization, characterization, industry
