Targeting superoxide dismutase to endothelial caveolae profoundly alleviates inflammation caused by endotoxin

Vladimir V. Shuvaev, Raisa Yu. Kiseleva, Evguenia Arguiri, Carlos H. Villa, Silvia Muro, Melpo Christofidou-Solomidou, Radu V. Stan, Vladimir R. Muzykantov

PII: S0168-3659(17)31095-7
DOI: doi:[10.1016/j.jconrel.2017.12.025](https://doi.org/10.1016/j.jconrel.2017.12.025)
Reference: COREL 9105
To appear in: *Journal of Controlled Release*
Received date: 27 October 2017
Revised date: 16 November 2017
Accepted date: 21 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Targeting Superoxide Dismutase to Endothelial Caveolae Profoundly Alleviates Inflammation Caused by Endotoxin
