

Author's Accepted Manuscript

Densification mechanisms and microstructural evolution during spark plasma sintering of boron carbide powders

Mei Zhang, Tiechui Yuan, Ruidi Li, Siyao Xie, Minbo Wang, Qigang Weng

PII: S0272-8842(17)32516-6
DOI: <https://doi.org/10.1016/j.ceramint.2017.11.061>
Reference: CERII6716

To appear in: *Ceramics International*

Received date: 21 October 2017
Revised date: 9 November 2017
Accepted date: 9 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Densification mechanisms and microstructural evolution during spark
plasma sintering of boron carbide powders**
