Utilization of graphene oxide for improving the environmental compatibility of cement-based materials containing waste cathode-ray tube glass

Wu-Jian Long, Yu-cun Gu, Dan Zheng, Ningxu Han

PII: S0959-6526(18)31271-X
DOI: 10.1016/j.jclepro.2018.04.229
Reference: JCLP 12810
To appear in: *Journal of Cleaner Production*
Received Date: 11 February 2018
Revised Date: 03 April 2018
Accepted Date: 25 April 2018

Please cite this article as: Wu-Jian Long, Yu-cun Gu, Dan Zheng, Ningxu Han, Utilization of graphene oxide for improving the environmental compatibility of cement-based materials containing waste cathode-ray tube glass, *Journal of Cleaner Production* (2018), doi: 10.1016/j.jclepro.2018.04.229

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Utilization of graphene oxide for improving the environmental**
2 **compatibility of cement-based materials containing waste cathode-**
3 **ray tube glass**
