

# Accepted Manuscript

Optimal design and operation of energy storage systems and generators in the network installed with wind turbines considering practical characteristics of storage units as design variable

Reza Hemmati

PII: S0959-6526(18)30719-4  
DOI: 10.1016/j.jclepro.2018.03.062  
Reference: JCLP 12320  
To appear in: *Journal of Cleaner Production*  
Received Date: 19 November 2017  
Revised Date: 30 January 2018  
Accepted Date: 06 March 2018

Please cite this article as: Reza Hemmati, Optimal design and operation of energy storage systems and generators in the network installed with wind turbines considering practical characteristics of storage units as design variable, *Journal of Cleaner Production* (2018), doi: 10.1016/j.jclepro.2018.03.062

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Optimal design and operation of energy storage systems and generators in the network installed with wind turbines considering practical characteristics of storage units as design variable**
