

Accepted Manuscript

Einstein gravity with torsion induced by the scalar field

H.T. Özçelik, R. Kaya, M. Hortaçsu

PII: S0003-4916(18)30099-X

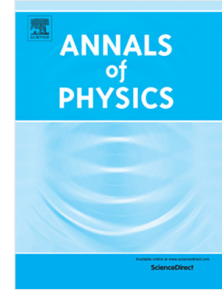

DOI: <https://doi.org/10.1016/j.aop.2018.04.012>

Reference: YAPHY 67643

To appear in: *Annals of Physics*

Received date: 6 August 2017

Accepted date: 6 April 2018

Please cite this article as: H.T. Özçelik, R. Kaya, M. Hortaçsu, Einstein gravity with torsion induced by the scalar field, *Annals of Physics* (2018), <https://doi.org/10.1016/j.aop.2018.04.012>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

Study of Einstein gravity with torsion nonminimally coupled with a scalar field

Looking for solutions in 2+1 dimensions

Obtaining analytical solutions for asymptotic cases with an ansatz

Results appear consistent with literature
