The overlap between essential tremor and parkinson disease

Musleh Algarni, Alfonso Fasano

PII: S1353-8020(17)30239-0

DOI: [10.1016/j.parkreldis.2017.07.006](https://doi.org/10.1016/j.parkreldis.2017.07.006)

Reference: PRD 3351

To appear in: *Parkinsonism and Related Disorders*

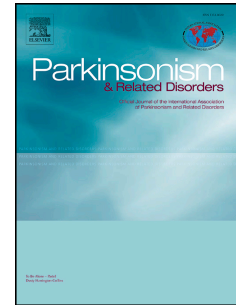

Received Date: 9 July 2017

Revised Date: 1353-8020 1353-8020

Accepted Date: 10 July 2017

Please cite this article as: Algarni M, Fasano A, The overlap between essential tremor and parkinson disease, *Parkinsonism and Related Disorders* (2017), doi: 10.1016/j.parkreldis.2017.07.006.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Session title: When It's Not Just Parkinson Disease: Associated Comorbidities and Other Movement Disorders

Session date: 15 November 2017, Wednesday

Session timeslot: 08:30 – 10:00

The Overlap between Essential Tremor and Parkinson Disease

Musleh Algarni, MD¹ & Alfonso Fasano, MD, PhD^{1,2}

1 Morton and Gloria Shulman Movement Disorders Clinic and the Edmond J. Safra Program in Parkinson's Disease, Toronto Western Hospital, UHN, Division of Neurology, University of Toronto, Toronto, Ontario, Canada

2 Krembil Research Institute, Toronto, Ontario, Canada

Key words: Diagnosis, Essential tremor, Parkinson's disease, Pathophysiology, Mechanism

Title Characters count (including spaces): 54

Abstract Word count: 200 (max 200)

Paper Word count (including legends): (max 3000): 2159

Tables/Figures: 1/2 (max 3)

References: 30 (max 30)

Conflict of Interest: None
