Efficient generation of transgene- and feeder-free induced pluripotent stem cells from human dental mesenchymal stem cells and their chemically defined differentiation into cardiomyocytes

Xiaobing Tan, Qingli Dai, Tao Guo, Jingshu Xu, Qingyuan Dai

PII: S0006-291X(17)32391-4

DOI: [10.1016/j.bbrc.2017.12.007](https://doi.org/10.1016/j.bbrc.2017.12.007)

Reference: YBBRC 39007

To appear in: *Biochemical and Biophysical Research Communications*

Received Date: 29 November 2017

Accepted Date: 1 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Efficient generation of transgene- and feeder-free induced pluripotent stem cells from human dental mesenchymal stem cells and their chemically defined differentiation into cardiomyocytes

Short Title : Generation of iPSCs and their differentiation
