

## Accepted Manuscript

Other very rare and poorly known uric acid crystals for the first time also shown by polarized light and definitively identified by infrared spectroscopy

C. Covarelli, A. Primiano, G. Garigali, E. Caselli, J. Gervasoni, S. Baroni, G.B. Fogazzi

PII: S0009-8981(18)30270-5  
DOI: doi:[10.1016/j.cca.2018.05.052](https://doi.org/10.1016/j.cca.2018.05.052)  
Reference: CCA 15228

To appear in: *Clinica Chimica Acta*

Received date: 24 May 2018  
Revised date: 26 May 2018  
Accepted date: 26 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Other very rare and poorly known uric acid crystals for the first time also shown by polarized light and definitively identified by infrared spectroscopy**
