

Accepted Manuscript

Bone marrow laminins influence hematopoietic stem and progenitor cell cycling and homing to the bone marrow

Katharina Helene Susek, Eva Korpos, Jula Huppert, Chuan Wu, Irina Savelyeva, Frank Rosenbauer, Carsten Müller-Tidow, Steffen Koschmieder, Lydia Sorokin

PII: S0945-053X(17)30421-3
DOI: doi:[10.1016/j.matbio.2018.01.007](https://doi.org/10.1016/j.matbio.2018.01.007)
Reference: MATBIO 1404

To appear in: *Matrix Biology*

Received date: 21 November 2017
Revised date: 8 January 2018
Accepted date: 8 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Bone marrow laminins influence hematopoietic stem and progenitor cell cycling and homing to the bone marrow
