

Author's Accepted Manuscript

A safer, urea-based in situ hybridization method improves detection of gene expression in diverse animal species

Chiara Sinigaglia, Daniel Thiel, Andreas Hejnl, Evelyn Houliston, Lucas Leclère

PII: S0012-1606(17)30375-5
DOI: <https://doi.org/10.1016/j.ydbio.2017.11.015>
Reference: YDBIO7635

To appear in: *Developmental Biology*

Received date: 31 May 2017
Revised date: 20 November 2017
Accepted date: 27 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A safer, urea-based in situ hybridization method improves detection of gene
expression in diverse animal species**
