Mitochondria/metabolic reprogramming in the formation of neurons from peripheral cells: Cause or consequence and the implications to their utility

Gary E. Gibson, Ankita Thakkar

PII: S0197-0186(17)30332-7

DOI: [10.1016/j.neuint.2017.06.007](https://doi.org/10.1016/j.neuint.2017.06.007)

Reference: NCI 4094

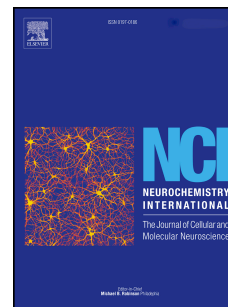

To appear in: *Neurochemistry International*

Received Date: 2 June 2017

Accepted Date: 12 June 2017

Please cite this article as: Gibson, G.E., Thakkar, A., Mitochondria/metabolic reprogramming in the formation of neurons from peripheral cells: Cause or consequence and the implications to their utility, *Neurochemistry International* (2017), doi: [10.1016/j.neuint.2017.06.007](https://doi.org/10.1016/j.neuint.2017.06.007).

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Mitochondria/metabolic reprogramming in the formation of neurons from peripheral cells: Cause or consequence and the implications to their utility**
